

Sustainable Transportation

WHY IS IT IMPORTANT CITIES TRANSITION TO MORE SUSTAINABLE MODES OF TRANSPORTATION?

Transportation Metrics for Sustainable Cities

Electrification of transit

- 100% zero emission buses by 2030

Increase density, especially around transit

- 3-10 % Increase in average density by 2030

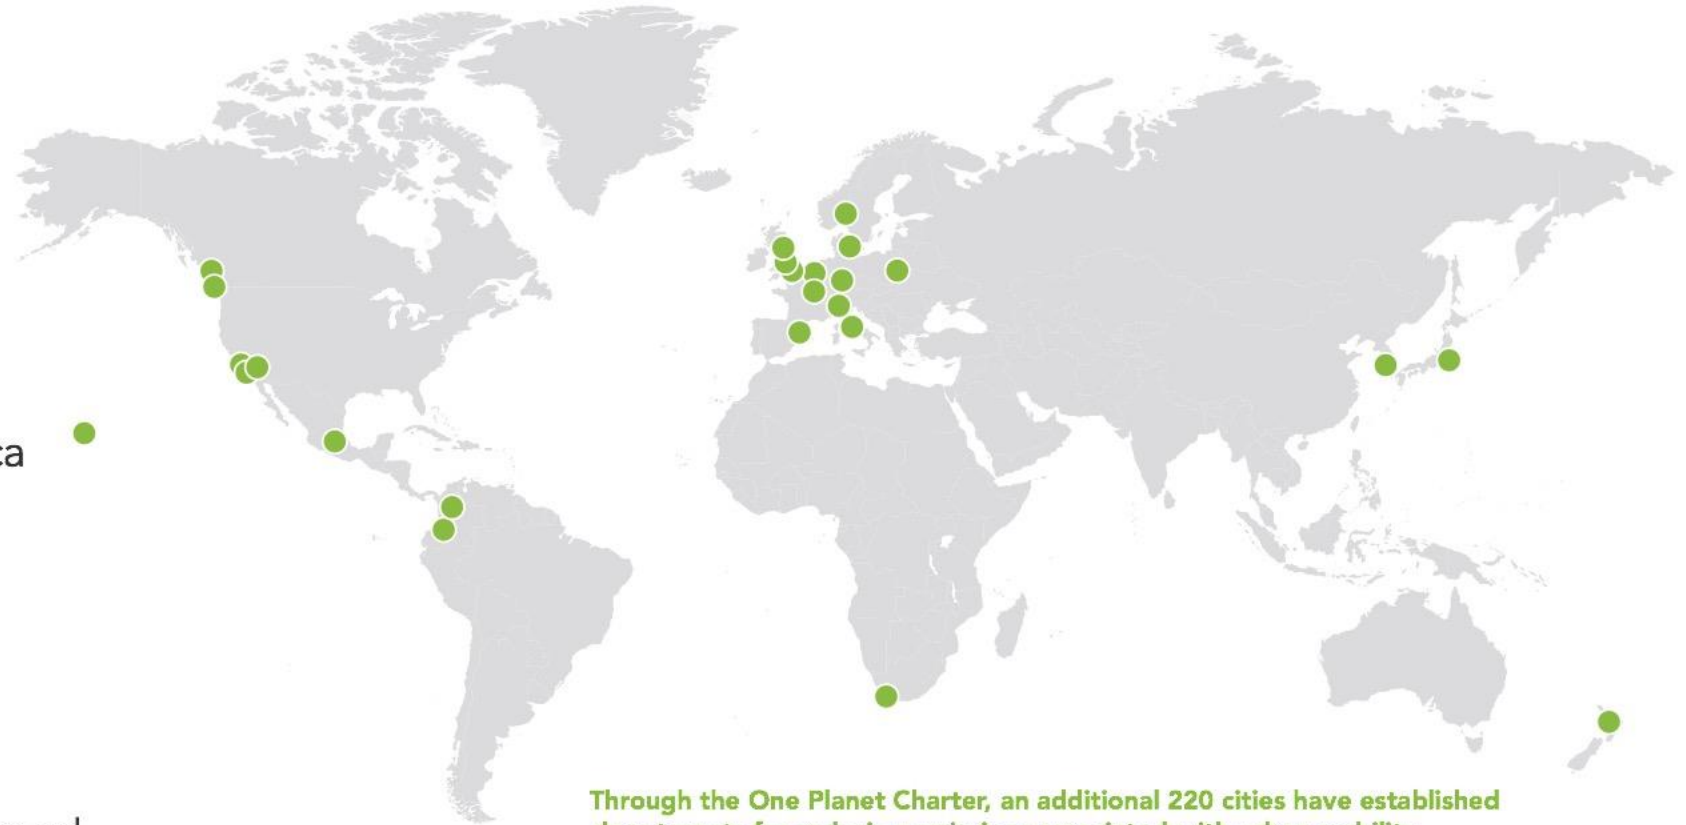

Overall increase in public transit and walking and cycling

- 55% total distance travelled by mass transit, walking and cycling by 2030

CITIES SIGNING THE GREEN AND HEALTHY STREETS DECLARATION

Auckland	Oslo
Barcelona	Oxford
Birmingham	Paris
