The AARP Livability Fact Sheets were created in partnership by AARP Livable Communities and the Walkable and Livable Communities Institute. A package of 11 comprehensive, easy-to-read resources, the fact sheets can be used individually or as a collection by community leaders, policy makers, citizen activists and others to learn about and explain what makes a city, town or neighborhood a great place for people of all ages. Each topic-specific fact sheet is a four-page document that can be read online — at aarp.org/livability-factsheets — or printed and distributed.
